

WELCOME TO SCIENCE BOWL!

An Intro to Science Bowl

What's going on?

What is Science Bowl?

- ✗ Academic competition sponsored by the US Department of Energy
- ✗ Fast-paced, buzzer-style competition
- ✗ Variety of math and science topics
- ✗ Teams of 3-5

What's Covered?

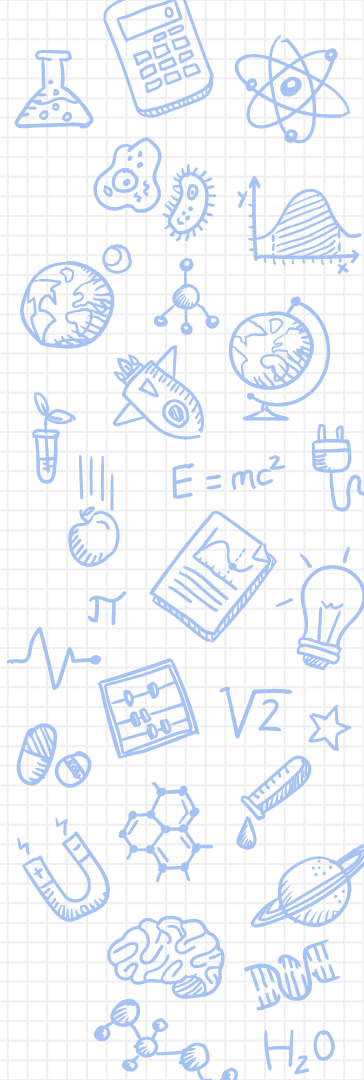

Five core topics:

- ✕ Life Science
- ✕ Physical Science
- ✕ Earth and Space Science
- ✕ Energy
- ✕ Mathematics

Questions

- ✗ Two types
 - ✗ Toss-up → 4 points and 7 seconds to answer
 - ✗ Bonus → only if toss-up is correct, 10 points, 22 seconds to answer
- ✗ Once you raise hand, must be **recognized** by moderator
- ✗ Multiple choice is w, x, y or z (to avoid similar sounding letters)
 - ✗ Student must either say letter or the exact wording of answer choice

- ✗ A toss-up question may be answered by any of the 4 or 5 members of the team by the **student raising their hand**
- ✗ Communication among team members is allowed for both toss-ups and bonuses
- ✗ A team will have only one opportunity to answer a toss-up question. If they do not answer a toss-up question correctly, the bonus will not be read and the moderator will proceed to the next toss-up question.
- ✗ More about the Competition rules can be found [here](#)

- ✗ **New: no head-to-head matches in the virtual regional competitions**
- ✗ At least three preliminary rounds, with sets of 15 toss-up/bonus questions
 - ✗ Goal is to score as many points as possible

Competition Structure

- ✗ The teams with the **highest combined point** totals from all preliminary rounds will **advance** to the Elimination Tournament.
- ✗ Teams that advance to the Elimination round will be read sets of 15 questions and rounds will continue until one clear winner has been decided

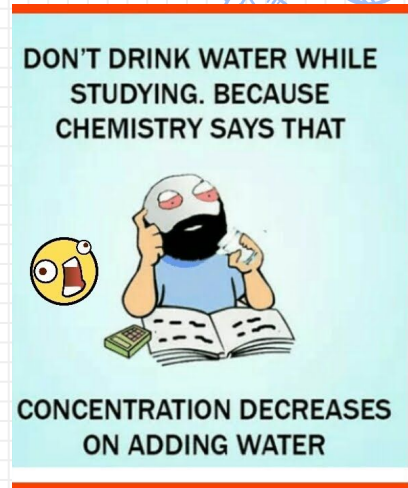

- ✗ Two cameras: one for zoom and one showing workspace
 - ✗ E.g. laptop and phone
- ✗ Working mic
- ✗ Reach out to us at sciencebowl@mit.edu if you need any technological resources to compete (headphones, microphones, webcams, etc.)

Example Round (High School)

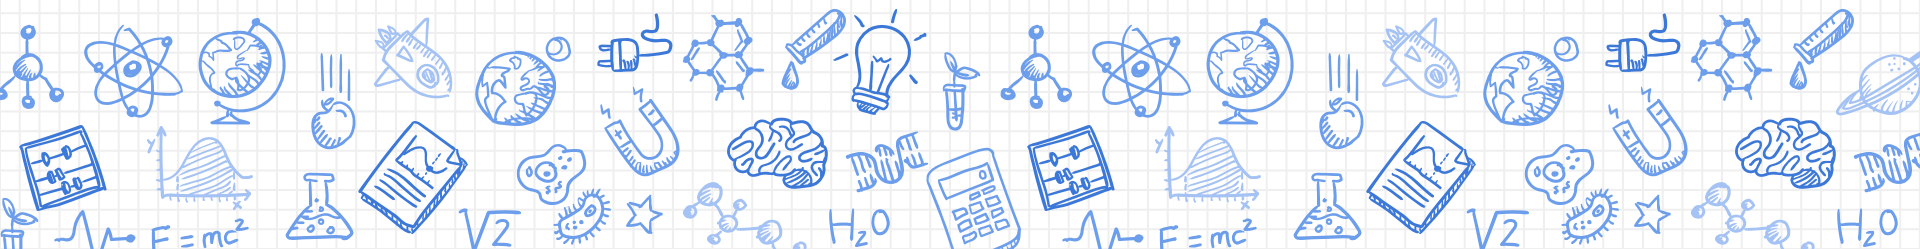

So how do I get started?

- ✗ Find a teacher willing to be the coach
 - ✗ Responsibilities include organizing team's paperwork, helping the team practice, and accompanying the team to competitions
- ✗ Select 3-5 students between grades 6-8 to be on your school's team
- ✗ Once your coach and team members are selected, your coach should fill out the forms on the [National Science Bowl Website](#) by following the link for "Coach Registration." Full registration instructions can be found [here](#).
- ✗ **Any questions? Feel free to contact sciencebowl@mit.edu**

Competition Registration

How to prepare?

- ✗ Check out this [website](#), where DOE has suggested some helpful prep materials
- ✗ Also look at sample questions from previous rounds, also available on DOE's [website](#)

Logistics of Competition

- ✗ This year, we will be holding our regional competition on February 19th
- ✗ Have your coach register at this [link](#) by February 5th once you have officially formed a team
 - ✗ Team rosters for registered teams may be modified until February 5th
